Unfortunately, one of our competitors is using Covée model names for their Diamond balls once again. A few years ago, they named a ball of lesser quality CD-1 because the Covée/Diamond CD-1 was our best-selling ball. They simply printed the same letters on a different ball, so that they could offer it for a lower price. In 2009, they found it necessary to do this once again by putting D-500 on their softballs. Our Covée/Diamond D-500 has been the best softball on the market for years and we supplied this ball to the European Softball Federation for several years. They now put D-500 on their VINYL balls, while the Covée/Diamond D-500 is LEATHER. As many people know by now, Covée/Diamond has been Covée's own brand for baseballs and softballs for over 20 years. All Covée/Diamond balls are made and designed exclusively for Covée Sports. So if you want the REAL CD-1 or D-500 you buy them from Covée and if you want the fake, lesser quality CD-1 or D-500 you buy them elsewhere.

Covee/Diamond CD-500FP

Covee/Diamond has been an officially registered brand for over 20 years. Covee/Diamond balls are produced exclusively for Covee in the same factories where the balls of the big-name brands are produced. Because we buy directly from these large factories, we can supply you with top-quality balls that have the exact same specifications as the balls of the top-name brands and offer them for the lowest-possible prices at the same time! Covee/Diamond balls are used on every level in EVERY European country!

Unfortunately, one of our competitors is using Covee model names for their Diamond balls once again. Bat Warranty
 Easton and DeMarini do not give any warranty on bats that are sold outside the United States. As a service, Covee offers a 1-month warranty on cracks, dents, and breaks. After this period, there is no more warranty. There are no exceptions to this rule. Small dents and "noises" may become noticeable, but they do not influence the performance and therefore do not qualify for warranty. Bats are very sensitive to temperature changes and cold weather. Do NOT use aluminium bats when it is less than 15 degrees, in a batting cage, on a pitching machine, or in indoor halls with hard floors. Youth bats are only to be used by youth and with safety balls. By purchasing a bat you automatically accept the above terms.

 **-3 Easton BX60 Reflex -3**

PRINTING JERSEYS - JACKETS - TURTLENECKS - BALLS - BAGS - BATS:

Major League Twill: This is the same material as the logos on the official Major League jerseys. This is the most deluxe way for printing. Logos are stitched. For text, logos, and numbers on jerseys and jackets.

Pro Flock: Printed directly onto jerseys and caps. Very high quality. Also very good for small logos.

Flex Film: This material melts itself into the fabric and will therefore never come off again. That is why we give a **life-time warranty** on this material! For printing text, logos, and numbers on jackets.

Screen Print: Ink that is printed directly on items like T-shirts, bags, balls, bats etc.

Numbers: Standard numbers are done in Varsity, 20cm. Prices are per complete number, so #28 is a complete number.

**New Flock color:
Orange!**
