

The unicorn

A white unicorn is drinking in the river. All of a sudden she stops, raises her head and lifts her ears because she has heard a noise !

She runs along the river. She sees a thing which is shining.
What is it ? To find out she gets on a boat and goes t the small island where the light is coming from.

When she reached the island, what a surprise! There was a little baby whale fighting for life. Seeing it in pain, the Stars Fairy lit and caressed him making him hope again.

The unicorn helped him by pushing him into the water with her horn, the little baby whale finding his family.

Then she took her boat and left. She was very happy she succeeded to save that baby whale.
