Beautiful project that may become true hopefully next year in the Yunus Emre farm:

At first there will be a visit to her seminar given in Turkey in August :

DANCE OF ONENESS - BODY OF LIGHT

information

so.. more about this soon !

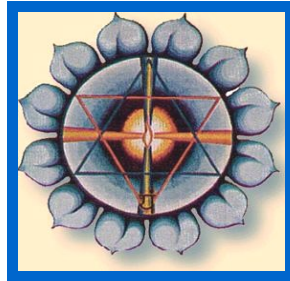

ECOBUILDING CAMP

So that the Yunus Emre farm may welcome visitors, guests, volunteers, at ANY time of the year despite of the weather conditions, we plan to build a **COMMON HOUSE**.

Its name : **ANAHAT** - Its place : in **SUN GARDEN**

it will probably be made out of **STRAW, WOOD, CLAY**, other natural materials and will be built with our **HANDS HEADS and HEART:o)**

(ANAHAT is the HEART chakra)

Karine, Yannick, and the farm's team are working on this project.. hopefully for 2013 :o)
Big thanks to them :o) ----- More information soon

SATYANANDA YOGA SEMINARS

Of course we hope to welcome more Satyananda Yoga seminars in the next months- years ...

REALISATIONS

What has been made thanks to the previous **DONATIONS** (2010- 2011) :

CHANDI HUT : This is the Guest Teacher's hut. Ultimately starting to take its shape, in the form of a large camping tent - to start with - covered by a protective roof. Once we will have learnt to build **MUD/ CLAY/ STRAWBAL** house, this hut will become a real **HOUSE** ! ..

MORE TOILET AND SHOWER HUTS

Near Chandi tent, a « shower+ dry toilet » hut has been built.

In the **HANUMAN** corner, another hut with 2 dry toilet has been built.

What has been bought thanks to **YOUR DONATIONS** 2010 - 2011

A waterpump for garden watering

Clothes to make shade

Watering and building material

PRESENTS : a **WONDERFUL HARMONIUM** has been OFFERED to the farm:o))))

FOR ALL OF THIS - HUGE THANKS TO YOU

EVENTS : THE REPORT

ELECTRICITY

You probably already learnt that unlike my hopes, electricity will NOT be given to the farm. The reasons being a very complex administrative system and the absence of real house in the farm...

The Sufis say that if something you really wish does NOT become real , it is BETTER for you and for the world.

I totally agree with this statement that i experience almost everyday ! Wise wisdom:o)
So everything is fine.

This will probably urge us to look more into details for SOLAR systems, precisely to find SOLAR PUMPS for the drill which appear totally feasible and not so unaffordable ?? lets see and HOPE !!! ...

Future will tell us

LOTUS POND :

Now WATER found its HOME in the Yunus Emre farm and the LOTUS POND found its Geomembrane (EPDM) ([video youtube](#)) thanks to MrTroser's patience, the bill could be paid- only recently once YOUR MONEY had arrived (11 July)

Still the borders of the pond have to be finished before winter.

Total cost: **3500 euros.**

(3000 euros paid- 500 euros to be paid with the final works)

Now you understood that:

It is not like there is « money for the electricity » and « money for the pond » no

There is YOU MONEY : **3983€**

The LOTUS POND bill : **3500 €**

And nothing to be paid for electricity.

So the remaining 483€ will be kept for other works and you will be informed OF COURSE :o)

Maybe a SOLAR PUMP ?

Now this e-gazete is finished
IFYOU WISH TO HELP THE FARM

there are MANY ways you can do it and not only with money !
See [HERE](#) for more information

Thank YOU for your TRUST
Thank you for READING the e-gazete
Thank you to help the farm to GROW.
